Captain Sullenberger Testifies Before the NTSB

.....

I'd like to know how many times the pilot practiced that maneuver before he actually pulled it off. I'm not questioning the pilots; they're good pilots. But they've clearly been instructed to head for the airport immediately after the bird strike. You've allowed no time for analysis or decision making. In these simulations, **you've taken all of the humanity out of the cockpit.** How much time did the pilots spend planning for this event, for these simulations? **You are looking for human error. Then make it human.**

First Officer Jeff Skiles: This wasn't a videogame. It was life and death. Sully's right, that's worth a few seconds.

Captain Sully: Please ask how many practice runs they had.

Elizabeth Davis: **Seventeen.**
